Join us for a spiritual evening of Radical Awakening hosted by spiritual counsellor, yoga teacher and author, Catherine Allon and psychic trance channel and author, Rev. Dr. Gregory Ashid Possman.

- Gregory channels the Archangel Michael “opening the hearts of the participants. Then connecting hearts and minds to create one inner voice.
- Generating a morphic field of the Highest Vibrational field or frequency will allow participants to experience their souls’ highest intention.
- Catherine will then lead the group in a meditation calming the mind to live in the present moment.
- The energy in the room and within all will change significantly
- With soul communication, it will allow each attendee to open to its soul’s highest desire.” – Archangel Michael
