

Reflexology and IonCleanse Foot Treatment \$100

Rev. Diane Pearson your Certified Reflexologist

905-884-3362

When we experience any trauma in our life, even if it is a small and we have not released it, the energy settles somewhere in our bodies as a dense negative ball of dark matter. This dense energy has the potential of eventually creating disease (dis-ease) in the body.

Reflexology is very effective healing modality of working on your feet. This appointment will identify past trauma's and release them, through talk therapy and reflexology combined. Your feet contain the map of your entire body system so this appointment will engage you mentally, emotionally, and physically to make changes on all levels.

You will feel more energized and happier after each reflexology session.
